WHY CHOOSE US?

We take the following steps scrupulously before making any move with your money

PLANNING

We do a lot of planning and extensive research before we start up any trade, investment or financial adventure. These two keywords have been the bedrock of our success over the years

ANALYSIS AND TESTING

Analysing the market based on the high/low index is the next step to follow through before going on any trade or investment. We always develop the right strategy to trade with before investing in a market. From the results of analysing, we test the strategy with demo accounts or starting small. This gives us feedback with data to review and decide if we are sticking to a particular strategy or not.

TRADING & INVESTING

Once we have gone through the previous processes and developed a unique trading strategy, then we are good to go. However, there's always a need to review incase the strategy falls through or there are better alternatives

Our Services

Services We Provide

img

FOREX TRADING

Forex trading is the act of buying or selling currencies. Banks, central banks, corporations, institutional investors and individual traders exchange foreign currency for a variety of reasons, including balancing the markets, facilitating international trade and tourism, or making a profit.

img

BINARY OPTIONS

A binary option is a type of option with a fixed payout in which you predict the outcome from two possible results. If your prediction is correct, you receive the agreed payout. If not, you lose your initial stake, and nothing more.

img

CRYPTO TRADING & MINING

With cryptocurrency being young, and the market being historically volatile, there is no yes or no answer about the wisdom of investing in cryptocurrency. It is with this in mind that we cover some pros and cons and friendly (but not professional) advice.

img

PRIVATE EQUITY

Private equity typically refers to investment funds organized as limited partnerships that are not publicly traded and whose investors are typically large institutional investors, university endowments, or wealthy individuals.

img

REAL ESTATE INVESTMENT

In a bid to attain financial stability, many search for proper investments with their income. Improvement of realty property as part of a real estate investment strategy is generally considered to be a sub-speciality of real estate investing.

img

STOCK & COMMODITY INVESTMENTS

Invest in commodity-related stocks. Buying stocks to related to certain commodities is a way to bet on the value of a commodity without incurring all of the risk of futures trading. Commodity investments tend to attract more investor attention when inflation fears start to mount.

TESTIMONIALS

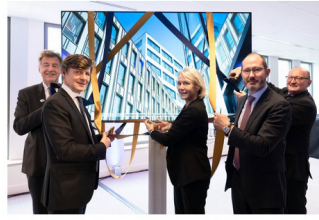

Cases of Success

“ I had an opportunity to meet with an advisor who told me to go with covviocapital.com. After a few months of usage, I can comfortably draw my own conclusions. covviocapital.com is the most transparent financial company I have ever invested with.
